

Total Applications and Results from 2014 - 2021

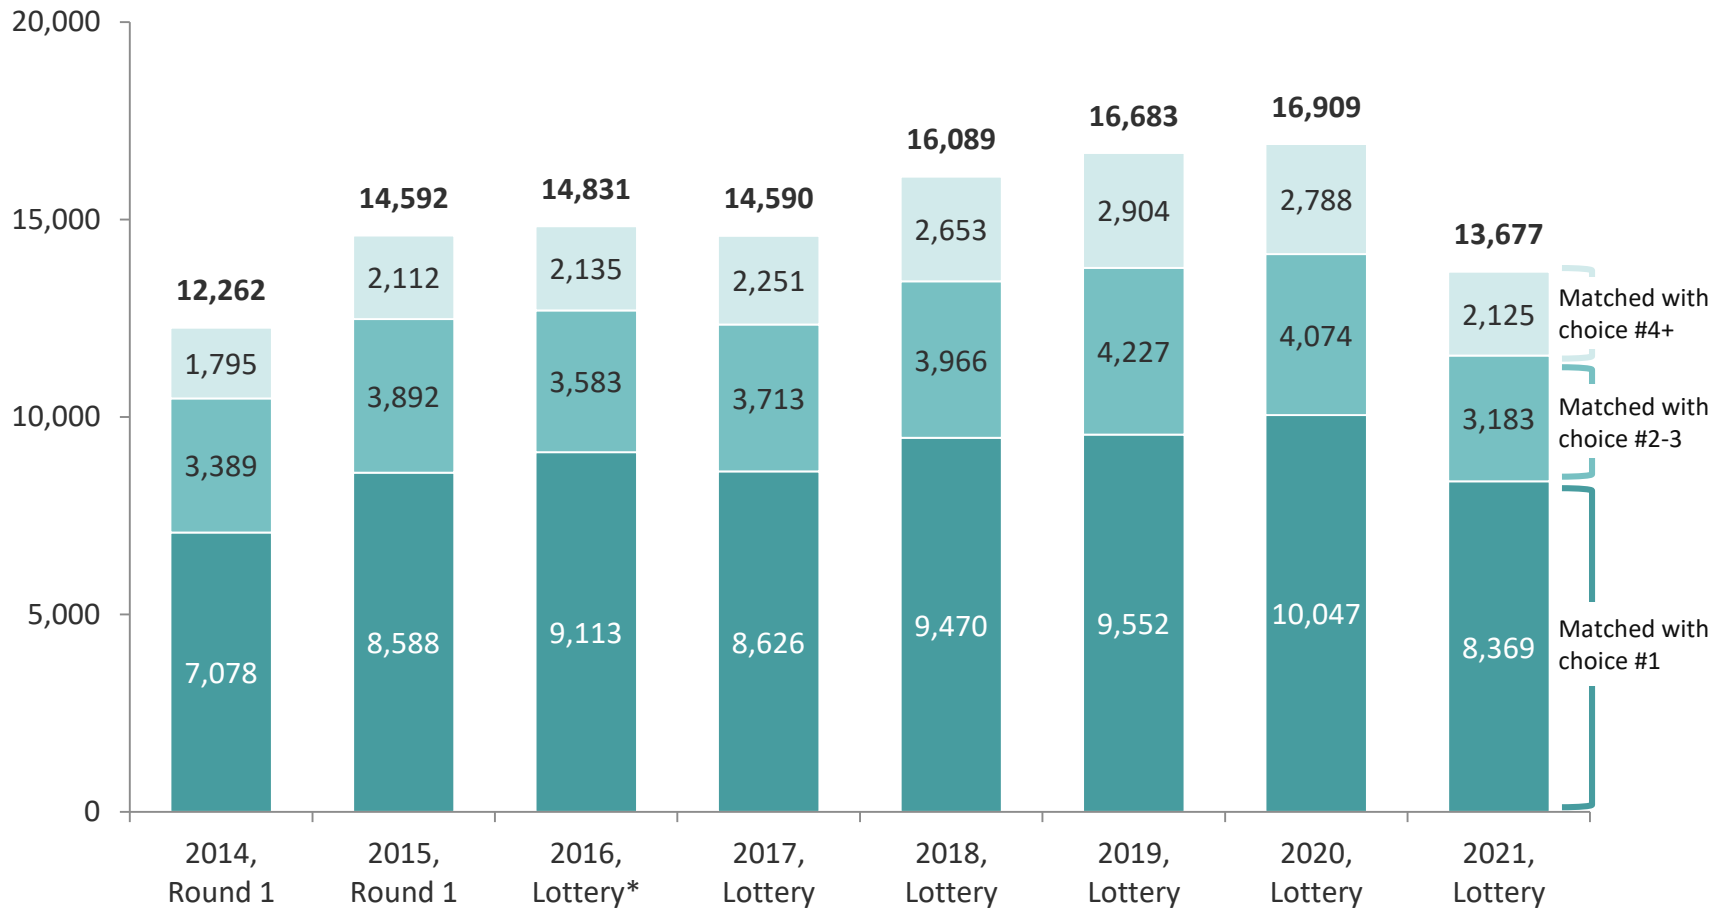

My School DC saw a 21% decrease in applications from 2020 to 2021, driven primarily by fewer applications in non-entry level grades. **The match rate for 2021 was 69%**, a slight increase from last year.

Note: The SY2021-22 lottery cycle was conducted amidst the COVID-19 pandemic. A drop in applications was foreseeable based on local and national enrollment trends and impacts due to the public health emergency.

*Beginning in 2016 there was only one lottery so no Round 1 distinction is needed

Match Results from 2014 - 2021

This year, of matched families, **61%** were matched to their #1 school selection, compared to 59% last year. **84%** were matched with one of their top three school selections.

**Beginning in 2016 there was only one lottery, so no Round 1 distinction is needed*
